

## HUMAN VALUES AND ETHICS CELL

NARAYANA ENGINEERING COLLEGE:GUDUR

**Human Values and Ethics Cell** aims to bridge the much necessary gap between the prevalent human condition and the envisioning of a happy and prosperous world. Through the introduction of this cell, an attempt is made to draw the attention of our stakeholders towards the problems and challenges that are confronted by them at individual, family, society and nature levels.

The modern day man is beset with many problems; the chief among them is the feeling of alienation and roots. Questions about the meaning of life and one's purpose in this world remain unanswered for majority of the people. In the absence of correct understanding of one's aim, people face problems at the individual level, family level, society and at the level of nature. Whichever level of existence we might concentrate on, people are restless, unhappy, jealous and bogged down with alienation. This attitude is carried forward when they have to interact with nature where they end up mercilessly and mindlessly in exploiting the nature.

The purpose of education is to provide all encompassing solutions to the problems faced by the people. The tragedy of the prevalent system is that our education is more oriented towards creation of skill sets rather than transforming the students into rational, responsible and ethical thinking human beings who can take policy decisions for the welfare of masses without harming the coexistence with nature.

It is hoped that the **Human Values and Ethics Cell** of the Institution ensures that the students are made aware of the problems and their possible solutions through self exploration. The Cell will ensure that the students internalize the fact that they have to respond to situations instead of reacting to them. At the same time, the Cell facilitates the students to identify their social responsibilities. Through the activities of the Cell, an effort is made to rid the society from the ills prevalent. Further the Human Values Cell will ascertain that the students realize that they have a lot of potential which when realized will propel the society forward in a positive direction.

### **Objectives of the cell:**

1. To develop the faculties of the students so that they are capable of discriminating between the values and insignificance in life.
2. Sharpening the critical and analytical faculties of the students.
3. To sharpen the sensitivity of the students towards nature.

4. To kindle the skills of the students to understand their responsibility towards family, society and the entire existence.
5. To make the students aware that wealth is not everything in life, in every respect.
6. To aware the students regarding the correct understanding of happiness and prosperity.
7. Develop Right Understanding by sharing the understanding of what to do.
8. To emphasize on Technical Education by teaching how to approach a particular situation.
9. Practice Right manner of living during the period of education.
10. Living in harmony with human beings, leading to mutual happiness.
11. Living harmoniously with rest-of-the nature leading to mutual peace and prosperity.
12. To develop universal values (Truth, Righteous conduct, Love, Non-Violence and peace); national values, human values, national integration, communal harmony and social cohesion.

The Human enrichment, Integrated Personality development and character building could be effective, through non-formal way of seeking a positive change in the value/temper of students and Teaching and non teaching staff. Such programs could be organized during vacations or after the study/working hours. These programs could include presentations and discussions on different themes like spiritual, moral, aesthetic, social, cultural, environmental values, values of democracy, scientific temper, communication skills, problems of youth, career choices, national integration, communal harmony and social cohesion.etc.

Awareness and sensitization program could be in the form of lectures, workshops for a day or two aimed at specific groups, like faculty members, students of a particular discipline, academic administrators, non-teaching staff etc.

The process of developing into a modern nation, with new social, political and economic institutions, and with an emphasis on science and technology, has thrown up many new values/ challenges in all walks of our life. It is important that we closely examine these challenges and prepare our youth to face these challenges and help them by resolving these challenges.

**Positive outcomes of the cell:**

The students will be able to develop holistic approach to and interaction with society and nature. They will be able to fulfill their relationship with each and every unit within the existence. The students will evolve as more responsible citizens of the society through self introspection and by learning right understanding, giving priority to relationships and not to wealth. The learners will realize the relevance of their existence at four levels of living. Over a period of time, such value-based education can contribute to the development of a human and humane society. This cell contributes, through Value Education, to overall world view that is required for a humane society.

**The Human Values and ethics cell shall consist of the following members:**

1	Professor Incharge	Coordinator of the cell
2	Faculty Incharges – Dept	Members of the cell
3	Students- one from each Dept	Members of the cell

**Tenure / Duration of the committee:**

- one year

**Frequency of the Meetings**

- Coordinator and Members (Faculty & Students) will meet **once in three months (Fourth Saturday)** to review the progress / schedule the activities of the Cell and to organize extraordinary meeting depending on exigencies, aswhen necessary, as per the recommendation of the cell in consultation with the coordinator and the Principal.

NECG/Cells&Committees/Circular/Sep/2022

Date: 05/09/2022

**Subject: HV&E Cell Reconstitution**

The HV&E Cell Committee has been reconstituted with the following members. The committee meetings will be held once in three months.

S.No	Name	Designation	Status
1	Dr.A.Hazarathaiah	Professor-ECE	Convener
2	Dr.L.Ganga Devi	Associate Professor-FED	Member
3	Mr.V.Sekhar	Assistant Professor-MECH	Member
4	Mrs.Y.Neeraja	Associate Professor-ECE	Member
5	Mr.K.Siva Kumar	Associate Professor-CE	Member
6	Mr.T.Y.Saravanan	Assistant Professor-EEE	Member
7	Mr.N.Koteswara Rao	Assistant Professor-CSE	Member
8	Mr.T.Anil Karuna Kumar	Assistant Professor-FED	Member
9	Mr.R.Eswaraiah	Assistant Professor-MBA	Member
10	Mr.J.K.Kumar (20F11A05F1)	Student Representative-CSE	Member
11	Mr.K.Annapoorna (20F11A04A9)	Student Representative-ECE	Member
12	Mr.V.David (19F11A0107)	Student Representative- CE	Member
13	P.Ashok Babu (20F11A0316)	Student Representative-MECH	Member
14	Mr.V.Sai Krishna (21F15A0206)	Student Representative-EEE	Member
15	Mr.T.Mohan (21F11E0036)	Student Representative-MBA	Member
16	Mr.G.Varun Kumar (21F11F0012)	Student Representative-MCA	Member

### Role of Education – To Enable Transformation

The role of education is

- To enable the transformation to human consciousness
- To facilitate the development of the competence to live with definite human conduct

1. RIGHT UNDERSTANDING (समझ) in the self

2. RELATIONSHIP (संबंध) with human beings

3. PHYSICAL FACILITY (सुविधा) with rest of nature

UNHAPPINESS Making others Unhappy

DEPRIVATION Exploiting and Depriving others

MUTUAL HAPPINESS (उभय सुख)

MUTUAL PROSPERITY (उभय समृद्धि)

Transformation & Progress

Human Consciousness मानव चेतना

Animal Consciousness जीव चेतना

One's education starts in the family, then goes on in school, college... It is influenced by media... role models in society...

## A Seminar on “Need of Human values in Higher Education and Society” Dated 21-09-2019

The Human Values and Ethics Cell organized a seminar on “Need of Human values in Higher Education and Society” on 21<sup>st</sup> September 2019. Mr.S.Venkata Krishna Rao addressed the students on Human values importance in education and society. Today's education, in its widely prevalent form, is not able to adequately empower students to think independently. This is clearly evident from the fact that the graduates are confused about their career and other important issues of life and living, even after spending 20 years in education. We feel that a major, if not the sole, purpose of education is to enable individuals in understanding these causal relationships. Even at the level of higher education, mere imparting of skills does not fulfil this requirement.

## **HVPE CELL**

### **A Programme on Human Values and Ethics**

**15-02-2019**

The seminar was organized on “Human Values and Ethics” by the department of Freshmen Engineering for first B.Tech students on 15<sup>th</sup> Feb 2019 at ECE Seminar Hall. On the occasion of programme, Mr. Sateesh kumar attended the session and addressed students that every one has to give value to neighbor and then it is called social life for better living in society. He mentioned some examples about human values and its ethics and he illustrated students about ethics of human beings and their valuable life on earth. Every one has to cultivate good attitude for each other and it reflexes in personal life.

## **A Seminar on Ethics and Moral values**

**Dated 26-08-2018**

The seminar was organized by Human Values and Professional Ethics Cell for first B.Tech students on 26 August 2018 at CIVIL Seminar Hall. In this seminar Dr.N.Manohar Reddy, Professor and Motivational Speaker from Tirupati addressed students that the aim of youth should be, to put the country on the road to progress and prosperity, and eradicate the ills that afflict the society. If the ideas, thoughts and idealism of the youth are channelized in the right. He explained with some examples about ethics and moral values in families and society. Every students maintain good attitude for each other and ethics of every one reflects in their personal life

## **“COMFORT AND HAPPINESS”**

**12-02-2018**

A. Sharma addressed the students on 12<sup>th</sup> Feb 2018 in the Seminar Hall at 3 pm. He delivered a lecture on “Comfort and Happiness.”

## **"Communal harmony for National Integration"**

**12-9-2017**

Mr.s. abhishek addressed the students on Communal harmony for National Integration. He motivated the youth as young generation is the foundation of any nation. As none of the buildings can survive without a strong foundation, a nation can also not survive and progress without a well-qualified, efficient and dedicated young generation.

## **“CARRIER GUIDANCE AND HUMAN VALUES”**

**08.01.2017**

NEC, Gudur HV&E Cell organized awareness programme on Carrier Guidance and Human Values. This programme lead by Prof.R.Rama Chandra Reddy. The main Motto of this programme is Value Education can improve the moral standards of the Human behavior in the society which thereby leads to the welfare of Humanity.

## **“Harmony in Family and Society”**

**22-10-2016**

Dr Aruna Devi has made lecture on “Harmony in the family and Society” dated on 22<sup>nd</sup> Oct 2016 in conference hall. A family being the first and major agency of socialization has great influence and bearing on value inculcations. It is the home which sets the pattern for the child's attitude towards People and society, aids intellectual growth in the child and supports his aspirations and good values.

## **Role of Youth in Promotion of National Integration**

**19-03-2016**

The lecture was given by S.Sudheer Free Lancer life skills coach, Hyderabad. In this programme he said that youth should take up leadership roles. “The Gen Next,” as the youth are identified, is the backbone of a nation today. They are today armed with various effective social networking tools which they can use to spread awareness towards national integration.

## “UNIVERSAL HUMAN VALUES AND PROFESSIONAL ETHICS”

21-03-2015

Mr.Sk.Shahenoor Basha attended as Resource person and he educated students that a change is needed in the education system. Education should prepare students with a larger view of life. Education should sensitize the students and equip them with an understanding of self and society. It can be carried out in 2 steps: I step: Human Values courses can be introduced in existing education. II step: Entire education can be remoulded.
