

## CAREER COUNSELING

Career Counseling is a process that focuses on helping one understand one's own self, as well as work trends, so that one can take an informed decision about career and education.

A genuine Career Counselor is the essence of right guidance, which is why he/she is the most important element of any career counseling process. At NECG we adopt two level system, The students mentor is the first career counselor, second comes the faculty with suitable domain expertise to provide specific information of the chosen field.

### CAREER COUNSELOR WILL:

- Help the students to figure out who he is and what he wants out of education, their career, and life.
- Help students to choose a field that is in tune with their skills and their job expectations.
- Help students to sort out, organize, and make sense of their thoughts and feelings related to career.
- Help students to identify the factors influencing their career development, and help them to assess their interests, abilities, and values.
- Help students to locate resources and sources of career related information.
- Help students to determine next steps and develop a plan to achieve your goals.

Proper implementation and Effectiveness of Career counseling is continuously monitored by
